

CENTRAL NEW ENGLAND  
REPORT OF THE REGIONAL SUPERVISOR  
2008

The past year has been a very good one for CNER, we started out the year by hosting the USPC national meeting which we held in Boston, and many thanks to Karen, Wendy, and Lelo for making that such a success!

The region appears to have a strong instructional program for its members, starting with the D3/C1 program, and moving through the higher rated members to the Upper Level program. There were unprecedented 27 or so applications for ratings at the B or above levels; a strong representation of our older members. It is clear the programs offered reach a lot of the members in the region. On the other hand, attendance at rallies is down, and we had to cancel three rallies this year. It is a trend nationally, as reported on the RS Digest, a result of the national economy undoubtedly. Hopefully next year will be better.

CNER appears to be a healthy region with active programs and a good intermingling of members between clubs.

Thank you everyone for your continued support over the year.

Respectfully submitted,  
Betsey Reeves,  
Regional Supervisor
